

Maya Raman

Senior Full Stack Engineer

maya.raman@example.test · +91 90000 12345 · Bengaluru, Karnataka · in/maya-raman-demo · GitHub ·

Portfolio

Summary

Senior Full Stack Engineer with 8 years of experience building accessible, secure and scalable web applications. Delivered Angular and Node.js platforms used by more than 100,000 customers, improved deployment frequency by 60%, and reduced production incidents through automated testing, observability and resilient cloud architecture.

Skills

Angular · TypeScript · JavaScript · Node.js · Express · REST APIs · HTML5 · CSS3 · PostgreSQL · Oracle · Docker · AWS · Playwright · Vitest · Git

Experience

Northstar Digital — Principal Full Stack Engineer

Jan 2022 – Present

Bengaluru, India

- Built Angular and Node.js customer platforms serving more than 100,000 monthly users.
- Reduced page-load time by 42% through lazy loading, caching and bundle optimization.
- Increased deployment frequency by 60% by introducing automated CI/CD quality gates.
- Mentored six engineers and established accessible component and testing standards.

BluePeak Systems — Software Engineer

Jun 2018 – Dec 2021

Chennai, India

- Developed REST APIs and background services processing more than two million monthly transactions.
- Reduced production incidents by 35% using integration tests, monitoring and structured logging.
- Migrated legacy UI modules to Angular while preserving existing customer workflows.

Projects

Resume Intelligence Platform v2 — Lead Developer

Mar 2024 – Present

Designed a resume-building platform with live A4 previews, ATS analysis, secure PDF export and automated visual-regression testing.

Angular, TypeScript, Node.js, Playwright, Docker

[View project](#)

Release Quality Dashboard — Full Stack Developer

Jan 2023 – Feb 2024

Built an engineering dashboard that combines deployment, testing and production-health metrics for release decisions.

Angular, Express, PostgreSQL, AWS
